

Multimodal Transportation Safety

EVC's Safety and Transportation teams can help improve your organization's safety culture to recognize and reduce hazards and learn from mishaps.

CTC Enterprise Ventures Corporation (EVC) conducts impartial, in-depth assessments and delivers reliable, unbiased solutions that emphasize increased quality, enhanced effectiveness, and rapid technology transition and deployment. To clients in the U.S. and abroad, EVC delivers assured outcomes. Our reach is broad; our areas of expertise, diverse.

EVC's team of safety and transportation experts uses proven coaching, mentoring, and change management techniques – targeting needed change to improve your organization's overall safety performance. We assist your safety management team to identify, track, and mitigate hazards; adopt and share best practices; facilitate meaningful incident investigations; and utilize meaningful data-driven trend analysis to proactively direct your safety efforts as part of your organization's integrated management system.

We can help your organization meet or exceed Federal Transit Administration (FTA) safety standards for transit and light rail.

Our goal is to improve your operations and business performance while simultaneously improving the safety climate and safety culture.

Unique Qualifications:

EVC Safety and Transportation Team members have instructed hundreds of students in courses which cover regulatory requirements, board organization, the investigation process, medical and legal aspects, photography, data collection, witness interviewing, human factors, data analysis, and report assembly.
