

Safety Management Systems

EVC Environmental, Safety, & Occupational Health Experts facilitate implementation of Safety Management Systems and improve worker awareness of workplace hazards.

CTC Enterprise Ventures Corporation (EVC) conducts impartial, in-depth assessments and delivers reliable, unbiased solutions that emphasize increased quality, enhanced effectiveness, and rapid technology transition and deployment. To clients in the U.S. and abroad, EVC delivers assured outcomes. Our reach is broad; our areas of expertise, diverse.

Looking for a team that understands your business and the daily challenges you face in executing a safety program? Striving to attain or maintain Occupational Safety and Health Administration (OSHA) Voluntary Protection Programs (VPP) Star recognition, or become American National Standards Institute (ANSI) Z-10 or Occupational Health & Safety Advisory Services (OHSAS) 18001/ISO 45001 certified?

EVC's experts continue to assist federal and industry worksites with safety management system (SMS) implementation. Many have elected to pursue VPP Star recognition, OSHA's highest designation for outstanding workplaces with comprehensive and successful safety and health management performance. We not only identify the issues, we provide the solutions to implementing a performance-based SMS that reduces injuries, occupational illnesses, and costs, while increasing organizational effectiveness and mission capability.

Core Capabilities

- EVC's safety experts have provided assistance to more than 300 DoD sites worldwide towards their completion of an SMS. We do this through an integrated framework and comprehensive approach to DoD safety and occupational health systems management primarily focused on improving safety program performance.
- EVC helps organizations implement a variety of SMS approaches that include OSHA Voluntary Protection Programs (VPP), ANSI Z-10, OHSAS 18001/ISO 45001 and the Federal Aviation Administration (FAA) SMS to prevent accidents and illnesses and sustain safety in the workplace.
- Our safety experts conduct assessments and provide a gap analysis and action plan tailored to the client's needs to reduce injuries/illness, improve work environments, and drive productivity.
- EVC provides web-based implementation and project management tools designed to aid in implementation and capture metrics and annual program criteria.
- EVC assists with developing Safety and Occupational Health (SOH) policy documents and communication plans to facilitate SMS implementation and improve worker awareness of workplace hazards.
