- Security Protection & Nonlethal Programs; SOF Tactical Network (C5ISR) Capabilities

### PRODUCTION SERVICES

- Prototyping; Light Manufacturing & Product Development
- Survivability Technologies; Signature Management Coatings; Water Recycling & Purification

## Products

### CYBERSECURITY: AGIS – Advanced Guard for Information Security

- A secure, bi-directional file transfer system with sophisticated cleaning and filtering capabilities that inspects and cleans high-risk, common-use files by removing malicious, hidden, and inappropriate content while preserving the original file format
- Serves as a cyber-guard to facilitate the exchange of files across networks
- Listed on NCDSMO Baseline

### SURVIVABILITY TECHNOLOGIES

- Trusted, low-cost signature management solutions
- Advanced topcoat (paint) material with enhanced signature management capabilities and conventional Chemical Agent Resistant Coatings (CARC) performance

### GREYWATER RECYCLING

- Water technologies that recycle greywater and waste water from other commercial and industrial sources for non-potable use.
- Greywater recycling systems for laundries, temporary installations, military, disaster relief operations, and remote living installations

### ADVANCED TOOLING

- **Deluxe H-60 Bridge Tool Kit** – Contains specially-designed tools for removal and installation of forward and aft bridge assemblies on H-60 aircraft
- **Quick Skive Removal Tools** – Specially-engineered, nonmetallic tooling for use on steel, aluminum, fiberglass, composites, glass and other delicate surfaces and have multiple applications for aviation and industry
- **Incremental Sampling Tool Kit** – Contains everything for incremental soil sampling consistent with U.S. EPA Method 8330B guidance

## Technology Transition & Commercialization

EVC uses a Lean Transition methodology to evaluate, monetize, and transfer advanced technologies designed and created by others to the marketplace. Our approach reduces risks associated with product development, scale up, and commercialization.
