

CARC-L (TALON®) Coating System

Revolutionizing Military Coatings with Superior Performance

Why Choose CARC-L?

CARC-L is the next-generation Chemical Agent Resistant Coating (CARC) designed to exceed expectations in durability, weatherability, and environmental compliance. Developed by Enterprise Ventures Corporation (EVC), CARC-L is the **original and first CARC-L approved and qualified by the US Army** to MIL-DTL-64159C and represents **the most significant change to traditional CARC in decades**.

EVC's CARC-L was specifically formulated to work with our groundbreaking technology CARC-E (TALON® Coating System). For the best possible color match to CARC-E, use EVC's CARC-L.

Applications

CARC-L is ideal for military vehicles, shelters, and equipment requiring superior protection against chemical agents, environmental degradation, and solar exposure.

EVC: A Trusted Innovator

EVC developed the original CARC-L, earning approval from the US Army Research Lab. With a proven track record of innovation and reliability, EVC continues to lead the way in military coatings technology. EVC's CARC products are the most significant advancement in CARC technology in decades, redefining performance standards for military coatings.

CARC-L (TALON®) Coating System

Key Features and Benefits

Extreme Durability

Outperforms traditional CARC topcoats in the harshest operational environments.

Superior Weatherability

No chalking or color change, maintaining a pristine appearance over time.

Reduced Solar Loading

Decreases the temperature inside vehicles and shelters, enhancing comfort and operational efficiency.

Environmentally Friendly

Low VOC and 100% HAP free, meeting stringent environmental regulations. Paint equipment can be cleaned with water instead of harsh solvents.

Improved Solar Degradation Resistance

Saves repair costs and minimizes out-of-service time, ensuring mission readiness.

Direct Drop-In Replacement

Fully compatible with legacy MIL-DTL-64159 CARC systems, requiring no additional facility upgrades.

EVC's CARC-L is the original and first CARC-L approved and qualified by the U.S. Army, representing the most significant change to traditional CARC in decades.

CARC-L Offering List

Black 0222	Green 0222	Brown 0222	Tan 0222	Sand 0222
------------	------------	------------	----------	-----------

Manufacturer Part Number	Description	NSN
3 Pint Kits (719)		
LSA-BLACK0222-0719-03P	3 Pint 37057 BLACK0222 GRADE L-0719 KIT	8010-01-701-9490
LSA-BROWN0222-0719-03P	3 Pint 30036 BROWN0222 GRADE L-0719 KIT
