

Maritime Series Signature Management Coatings

**Advanced, Affordable, Eco-Friendly
Protection for Naval Vessels**

Enterprise Ventures Corporation's (EVC's) Maritime Series of signature management coatings represents the pinnacle of naval stealth technology. Our coatings are meticulously formulated to meet the exacting standards of modern naval operations, providing unparalleled protection and concealment at a fraction of the cost of traditional solutions, while also prioritizing environmental safety and application flexibility.

Key Features:

- Customized Signature Management
- Specific Visual Requirements
- Proprietary EVC Materials
- Enhanced Maritime Stealth Capabilities
- Cost-Effective
- Environmentally Friendly: HAP-Free and Low VOC
- Flexible Application: Spray or Roll-On

Unmatched Stealth, Unbeatable Value, Uncompromised Safety

Our custom-developed and manufactured signature management materials provide thermal signature management in critical situations, reduce operational costs, and minimize environmental impact, with easy application options to suit your needs.

Low-Cost Alternative

EVC's innovative approach to material development has resulted in a breakthrough: high-performance signature management coatings at substantially lower costs than competing options. Our materials offer:

- Up to 40% cost savings compared to traditional solutions
- Reduced lifecycle costs due to improved durability
- More affordable fleet-wide implementation

Eco-Friendly Formulation

EVC is committed to environmental responsibility without compromising performance.

- HAP-Free: Zero Hazardous Air Pollutants
- Low VOC: Minimal Volatile Organic Compounds
- Reduced environmental impact during application and use

Versatile Application Options

EVC Maritime Series coatings are designed for easy and efficient application.

- Available in spray or roll-on formulations
- Suitable for various vessel sizes and shapes
- Adaptable to different shipyard capabilities and preferences
- Ensure uniform coverage and optimal performance
